

## Product Information and Traditional & Alternative Uses

This proprietary blend consists of Clove Bud, Basil, Cinnamon Bark, Anise Seed, Oregano and Peppermint essential oils and makes up one part of our PSM trio of products. By expertly combining these essential oils, we're able to provide you with a strong concentration of phenylpropanoids. Phenylpropanoids are known as effective combatants against bacteria and fungi and are exceptionally adept at cleaning receptor sites and aiding in clear cellular communication.
