

## Product Information and Traditional & Alternative Uses

With over a century of medicinal use, an abundance of scientific evidence demonstrates this essential oil to be an effective antiseptic, antibacterial, antifungal, antiviral, and even a germicide. This means it's particularly amiable in working with respiratory infections, acne, ringworm, cold sores, cuts, rashes, gum disease, chicken pox, and even herpes.

| ④ VAGINAL BACTERIA       | ⑧ MRSA INFECTIONS |                   |

### Primary Action - Relaxing & Detox:

**NAIL FUNGUS/ATHLETE FOOT:** Make an antifungal toenail remedy. Add 4 oz of apple cider vinegar to dark bottle Add 20 drops Aeroma lavender, 20 drops Aeroma Tea Tree, 15 drops Aeroma oregano. Add mixture to a cotton ball and apply to affect nail(s) repeat four times daily. If you're having trouble getting rid of the fungus try using tea tree directly on affected nail. Warning applying tea tree neat for a long duration may dry out the skin.

**VAGINAL INFECTION:** Mix 6 drops Aeroma Tea Tree with three drops Aeroma lavender in 1 tablespoon of avocado oil. Apply this mix on the vaginal areas to relieve itching and reduce infection. Repeat twice daily or as needed.

**BACTERIA INFECTIONS/COLD SORE:** Apply neat directly on affect area.
