

Product Information and Traditional & Alternative Uses

This oil's rare inherent characteristics impact the body through a high concentration of beneficial nerolidol, a unique member of the sesquiterpenes family. It creates a magnified response for other essential oils, making it invaluable in healing difficult physical and emotional challenges, increasing the body's ability to create bone marrow, destroying pathogenic cells, eliminating mold or Candida overgrowth, and replicating much-needed red and white blood cells.

Primary Action - Wound Healing & Skin Care:

MENTAL CLARITY/REDUCE STRESS: Add five drops to Aeroma plus or 10-15 drops to Aeroma Pure diffuser and diffuse throughout the day.

STRESS: Apply 1-2 drops to the back of the neck and temples. Practice relaxation techniques such as deep breathing, positive affirmations, meditation, etc.

SKIN CARE/CALMING/WOUND HEALING: Make a healing moisturizer. 1/2 cup grapeseed oil (conveyance), 1/2 cup sweet almond oil, two tablespoons beeswax, one tablespoon vitamin E oil. 5 drops each of the following Aeroma essential oils cabreuva, sacred frankincense, lavender, geranium, and yuzu . Melt beeswax in a double boiler, once melted add grapeseed, sweet almond, and vitamin E oil. Let cool 3 minutes then add essential oils. Allow cooling for at least 2 hours.
