

## Product Information and Traditional & Alternative Uses

This unique essential oil is harvested from wild crafted resin in Brazil. Copiaba constituents have been the subject of recent studies and were shown to provide significant anti-inflammatory effect and relieve muscle spasms, contractions or cramps that would not otherwise release. This element has also been proven to reduce inflammation and infection on the skin, even MRSA, making it a popular choice for the treatment of cuts, bruises, external wounds, and fungal infections.
