

Product Information and Traditional & Alternative Uses

Wild-crafted lemongrass stems from Egypt are the source for the powerful elements in this essential oil that build collagen fibers in the tissues of tendons and cartilage. Lemongrass is also soothing to the entire body system thanks to naturally occurring analgesic properties. This regenerative action extends to the skin in the form of strong antibacterial action.

| 2 STOMACHACHE | 6 VOMITING | 10 MUSCULOSKELETAL PAIN |
| 3 HYPERTENSION | 7 COMMON COLD | 11 INJURED TENDONS |
| 4 NATURAL DEODORIZER | 8 EXHAUSTION | 12 WARTS |

Primary Action - Muscle Pain, Nausea & Fungus:

TENDONS/MUSCULOSKELETAL PAIN: Dilute in a 1:1 ratio and apply to the area of discomfort.

COMMON COLD/EXHAUSTION/HYPERTENSION: Add 3-5 drops to the bottom of the feet and around the prostate. Or add to diffuser and diffuse throughout the day

WARTS: Skin sensitivity can be standard may want to start with a dilution of lemongrass and reduce the amount of carrier oil as you determine your body sensitivity. Place a band-aid over the wart and put one drop underneath the band-aid a few times through the day. May need to repeat for several days. Lemongrass may stain the skin yellow after repeated use. The staining will go away after a few days.

STOMACHACHE: Apply 2-3 drops to the abdomen area and massage in a clockwise motion.
